PROFILE

Freelance Web Developer with experience designing and building modern, responsive, and secure websites for clients. Proficient in JavaScript, TypeScript, HTML, CSS, and content management systems like WordPress. Focused on delivering clean, accessible, and SEO-friendly content with a strong eye for mobile-first design and performance.

WORK EXPERIENCE

Freelance Web Developer   June 2025 — Present | Walsall

- Helped local businesses build their digital presence by designing and developing responsive, user-focused websites using **WordPress** and custom **HTML, CSS,** and **JavaScript**.
- Optimized sites with the **Rank Math SEO** plugin, improving search engine visibility and generating **45+** new impressions shortly after launch.
- Ensured fast performance, clean layout, and mobile responsiveness across all devices.
- Provided ongoing **technical support, troubleshooting,** and **website maintenance** for long-term client success.

Web & Social Media Coordinator (Volunteering), Wishes Just 4 You   Apr 2025 — Present | Walsall

- Designed, built and maintained the charity's website through **WordPress** and **Elementor**.
- Managed social media content, increasing engagement and online presence.
- Promoted the charity's mission across digital channels, leading to a 50% rise in volunteer sign-ups.
- Designed branded visuals and copy using Canva to enhance online presence.
